ANTIOCH POLICE DEPARTMENT INFORMATION THINK UNDERAGE DRINKING DOESN'T AFFECT A TEEN'S BRAIN? THINK AGAIN.

IT'S A FACT. New research shows alcohol affects a teenager's developing brain differently than an adult's brain. Memory, learning and impulse control can be impaired seriously. The risk of addiction goes up dramatically. So talk to your kids about the dangers of alcohol and set clear rules about no alcohol use. Visit www.drugfree.org/parent for more information and the proven skills to prevent *Underage Drinking*.

EDUCATION ALONE is not enough to deter teens from drinking as they enter difficult social transitions to adulthood, because there are many pressures and opportunities to drink. Parents who are actively involved can have a powerful influence on their child's decision to remain alcohol-free.

Teen perceptions of parental disapproval are great deterrents: What parents may not realize is that children say parental disapproval of underage drinking is the key reason they have chosen not to drink.

Research indicates that children are less likely to drink when their parents are involved in their lives and when they and their parents report feeling close to each other. Family conflict and lack of bonding are associated with increased risk of drinking. Mixed messages, and unclear rules and expectations also leave children more vulnerable to underage drinking.

RISKS ASSOCIATED WITH UNDERAGE DRINKING. Alcohol use among children is strongly correlated with violence, poor academic performance and other harmful behaviors. Education alone will not keep your kids from using alcohol because there are constant pressures and opportunities to drink. Further, the areas of the brain that encourage impulsivity and risk-taking develop early in a teen, while the areas that improve self-control don't develop until the very late teens or early twenties. You must stay actively involved as a parent, setting boundaries and monitoring behavior to help your child remain alcohol-free.

SOME MORE FACTS:

Motor Vehicle Crashes

In 2007, 33% of Illinois' teenage (16 - 20 years old) crash deaths involved alcohol.

Violence

Children who start drinking before age 15 are 12 times more likely to be injured while under the influence of alcohol and 10 times more likely to be in a fight after drinking, compared with those who wait to drink until they are 21.

School

Teens who use alcohol have higher rates of academic problems and poor performance than non-drinkers. Among eighth-graders, higher truancy rates are associated with greater rates of alcohol use.

Alcohol Poisoning

Most kids have not yet developed the "cut-off" switch that makes them go to sleep or pass out from too much drinking. They can consume dangerous amounts of alcohol before they realize it's too late. This can result in alcohol poisoning, which can cause difficulty breathing, unconsciousness and death. Binge drinking can and *does* kill —killing as many young people as all other drugs combined.

If a young person ever passes out from drinking, call 911 immediately!

PHOSPHORUS BAN

Last year the Village Board of Trustees passed an ordinance banning the use of fertilizer containing phosphorus within Village Limits in order to limit the concentration of phosphorus in the Village's lakes, rivers and streams. Wherever fertilizer is sold within village limits, a sign must be posted that reads "The Village of Antioch prohibits the application of fertilizer containing phosphorus to a lawn or turf area and any impervious surface, drainage way, wetland or buffer zone". Please be sure when you purchase fertilizer that it does not contain phosphorus.

TAKE PRECAUTIONS AGAINST H1N1 INFLUENZA

Now that the World Health Organization (WHO) has raised the level of influenza pandemic alert to Phase 6 and officially declared a flu pandemic, the Lake County Health Department/Community Health Center continues to remind residents to take precautions against the flu.

"This declaration reminds us that flu viruses like H1N1 need to be taken seriously," said the Health Department's Executive Director Irene Pierce. "We normally don't think of taking precautions against the flu in the summer time, but it is important to take everyday steps to protect your health and lessen the spread of this new virus. Particularly, summer camps and other places where children gather should be extra vigilant this summer."

Individuals have an important role in protecting themselves and their families. Prevention actions to stop the spread of germs include frequent hand washing, covering your cough or sneeze and staying home if you are sick to limit further spread of the disease. If you are sick with a flu-like illness, stay home for seven days after your symptoms begin or until you have been symptom-free for 24 hours, whichever is longer. Symptoms of H1N1 flu include fever, cough, sore throat, body aches, headache, chills and fatigue. Some people have reported diarrhea and vomiting as well.

As of June 12, 193 confirmed cases of H1N1 virus have been reported in Lake County. Nine of these people have been hospitalized and one individual has died. While most cases of this illness are mild, pregnant women and individuals with chronic medical conditions, such as asthma, heart disease, lung disease or diabetes, should contact a health care professional about treatment if they think they have the flu.

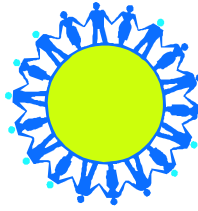

The Health Department continues to work with its counterparts and stakeholders to control the disease. It continues to participate in statewide surveillance and case investigation. The Department is also preparing for a possible pandemic immunization campaign.

The Department has activated an H1N1 flu hotline for county residents to obtain more information on the flu, including the signs and symptoms and how to remain healthy. The hotline number is: (847) 377-8350. Information is provided in both English and Spanish.

Additional information is available from the Centers for Disease Control in English: <http://www.cdc.gov/h1n1flu/> or in Spanish: <http://www.cdc.gov/h1n1flu/espanol/> and from the Illinois Department of Public Health: <http://www.idph.state.il.us/>.

The change in pandemic alert level reflects greater geographic spread and does not reflect any change in influenza severity. For more information on pandemic alert levels, visit the Health Department's web site at: www.lakecountyil.gov/health.

HAS YOUR PET EVER BEEN LOST?

WHAT DO YOU DO? PROTECTING YOUR PET ...

"Saving one animal won't change the world, but the world will change for that one animal." Every pet owner has experienced a moment when his or her beloved pet was lost, if only for a moment. These moments can be heart wrenching. Every pet has the potential to roam or run away, especially when disaster strikes.

So, what do you do if your pet becomes lost? The first thing would be to call your local police department (Antioch Police Department if in the village or Lake County Sheriff if in the township) and report your pet lost. This is also what you would do if you found someone else's lost pet. Second, call Lake County Animal Control at 847-949-9925, which maintains a lost and found pet service. And, third, put up postings in the general area of your home in case someone has seen or found your lost pet so they may call you with information.

What can you do to assist in the process of being reunited with a lost pet? Your first line of defense is your pet's collar tags. A tag with your phone number on it makes it quick and easy to return your pet. A rabies tag also helps, as its registration number can be matched to your dog by the county.

The latest technology is microchipping. A simple chip the size of a grain of rice implanted between your pet's shoulder blades could save your pet's life and save you a lot of heartache. Microchips are read by scanners, which pick up the identification code. There are several different manufacturers of microchips, which can be read easily by a universal scanner and traced to the owner through the chip company's database. Local veterinarians, kennels, and shelters own universal scanners that can check an animal for the presence of a microchip. Your local veterinarians, pet supply stores, kennels, and some rescue groups can implant the microchip for a reasonable fee.

Underdog Rescue, Inc., urges pet owners to be aware of how important microchipping is in returning lost animals home, protecting pets from theft and protecting pets from accidental euthanasia. Underdog Rescue implants microchips in all its foster pets and sends every pet home with a collar tag.

To learn more about Underdog Rescue, pets available for adoption, becoming a foster home for needy animals, volunteering in other ways, or making monetary, service or item donations, please visit UR's website at www.underdog-rescue.com. For information on donating or fostering, contact Joan Boro at 847-529-5959, e-mail UnderdogRescueIL@aol.com; or Robyn Eichler at 847-508-2452.

2ND ANNUAL "DOGS 'N CHIPS" DAY LOW-COST MICROCHIPPING CLINIC

The 2nd annual Underdog Rescue Dog 'n Chips event offering low-cost microchipping for pets owned by local residents is taking place this year on Saturday, August 8 from 11a.m. to 3 p.m. in Williams Park Pavilion just off Route 83 on Williams Street in Antioch.

Canine nail trims, pet treats, hot dogs and chips will be available for a donation as well, plus raffles for "Under Wear" (Underdog Rescue sweatshirts, shirts and hats). FINE ARTS FOUNDATION ARTIST

Kenneth Rebholz and Marilyn Ellinghussen are the featured White Room artists for August at Antioch Fine Arts Foundation (AFAF). AFAF is a not-for-profit organization active in promoting the visual arts in and around Lake County Illinois.

Kenneth Rebholz, a new member of AFAF, captures evocative images of beautiful, and sometimes provocative, women to canvas with intense, contrasting shades of chalk. Although he has no formal training, artistic expression runs in his veins via his grandfather, who originally created the "Birth of a Nation" poster for Hollywood at the age of 14. Ken has and will do commissioned murals in your home or office. In addition to his female subject matter, surreal renditions of princesses, angelic fairies, and in commemoration of those notables recently departed, Ken will have recent chalk drawings of Farrah Fawcett and Michael Jackson on display.

Marilyn Ellinghussen, also a new member of AFAF, creates her illustrations in colored pencil. Marilyn, a precocious child, talked to fairies in bushes and received some advice from Dale Messick, the cartoonist who drew Brenda Star in the Chicago Tribune and as an art major in college, Seymour Chwast, an illustrator for Playboy magazine back in the 50's, gave her tutelage. Classes at the Art Institute aided in her discovery that she enjoyed depicting faces, and eyes in particular, in her drawings. Originally, she wanted to be an anatomical artist and even sold a plate of the eye to a publisher while in nurses training. A blank wall at Mirror Images, screaming for art, inspired the return to her childhood and young adult compulsion to communicate through colored pencil.

If you enjoy the illustrative 20's, 30's and 40's "Art Nouveau" technique, this is a show you cannot miss. This show couples the words "sophisticated fancy."

An artist's reception will be held on Saturday, August 15th from 12-4pm at The Gallery, located at 983 Main Street, downtown Antioch, Illinois. Ken and his daughter, Minda, will be playing their original and rock music on their guitars for your enjoyment. For more information about the gallery, call 847-838-2274 during business hours: Th/Fr/Sa 10-4pm, Su 12-4pm; or visit us on-line www.antiochfinearts.org

This is the perfect opportunity to come to Downtown Antioch and begin your holiday shopping!

The new location of the AC Faire proved to be popular at the Summer AC Faire which was held in June. Both Shoppers and Crafters alike enjoyed the new layout and location of the Faire, which was held on Toft Street and in the large municipal parking lot on Toft. This new location for Antioch's Summer and Fall AC Faires serves as a centralized "Downtown" site that allows Shoppers to walk through our authentic Downtown as they approach the Faire. Downtown Shops enjoyed the additional foot traffic through town during the Summer Faire.

Information and crafter registration is available on-line at the Antioch Chamber of Commerce's website, www.AntiochChamber.org. For additional information, please contact the Antioch Chamber at 847-395-2233. Antioch is Close to Home and Close to Perfect!
